REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Administrative Regulation #: 907 KAR 3:183
Cabinet for Health and Family Services
Department for Medicaid Services
Agency Contact Person: Stuart Owen (502) 564-4321

- (1) Provide a brief summary of:
 - (a) What this administrative regulation does: The administrative regulation establishes that the Department for Medicaid Services (DMS) will issue eight (8) supplemental payments to hospitals reimbursed via the diagnosis-related group (DRG) reimbursement methodology which agreed, in April 2009, to accept the supplemental payments.
 - (b) The necessity of this administrative regulation: This administrative regulation is necessary to provide funding necessary to participating hospitals to enable them to serve Medicaid recipients and; thus, protect the health, safety and welfare of Medicaid recipients and to prevent a loss of federal funds authorized under Title XIX of the Social Security Act and the American Recovery and Reinvestment Act of 2009.
 - (c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of authorizing statutes by enabling DMS to provide funding necessary to participating hospitals to enable them to serve Medicaid recipients and; thus, protect the health, safety and welfare of Medicaid recipients.
 - (d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by enabling DMS to provide funding necessary to participating hospitals to enable them to serve Medicaid recipients and; thus, protect the health, safety and welfare of Medicaid recipients.
- (2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
 - (a) How the amendment will change this existing administrative regulation: The amendment establishes that the Department for Medicaid Services (DMS) will issue eight (8) supplemental payments to hospitals reimbursed via the diagnosis-related group (DRG) reimbursement methodology who agreed, in April 2009, to accept the supplemental payments. Additionally, it eliminates provisions which have expired and clarifies that the supplemental payments are contingent upon the provision of federal financial participation by the Centers for Medicare and Medicaid Services (CMS) to the department.
 - (b) The necessity of the amendment to this administrative regulation: This administrative regulation is necessary to provide funding necessary to participating hospitals to enable them to serve Medicaid recipients and; thus, protect the health, safety and welfare of Medicaid recipients and to prevent a

loss of federal funds authorized under Title XIX of the Social Security Act and the American Recovery and Reinvestment Act of 2009. Failure to maintain this safe guard would jeopardize the health, safety and welfare of recipients of Medicaid program services as well as impose an extraordinarily injurious and unsound financial burden on the citizens of Kentucky.

- (c) How the amendment to this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of authorizing statutes by enabling DMS to provide funding necessary to participating hospitals to enable them to serve Medicaid recipients and; thus, protect the health, safety and welfare of Medicaid recipients. Additionally, the amendment rendering supplemental payments contingent upon receipt of federal funding conforms to the content of authorizing statutes by maintaining the viability of the Medicaid program. CMS provides a significant majority of program funding to the department. The department, as part of its mission to serve the citizens of the Commonwealth of Kentucky in a fiscally responsible manner, must strive to ensure that program policies are contingent upon receipt of federal funding. Failure to maintain this safe guard would jeopardize the health, safety and welfare of recipients of Medicaid program services as well as impose an injurious and unsound financial burden on the citizens of Kentucky.
 - (d) How the amendment to this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by enabling DMS to provide funding necessary to participating hospitals to enable them to serve Medicaid recipients and; thus, protect the health, safety and welfare of Medicaid recipients 2009. Additionally, the amendment rendering supplemental payments contingent upon receipt of federal funding will assist in the effective administration of authorizing statutes by maintaining the viability of the Medicaid program. CMS provides a significant majority of program funding to the department. The department, as part of its mission to serve the citizens of the Commonwealth of Kentucky in a fiscally responsible manner, must strive to ensure that program policies are contingent upon receipt of federal funding. Failure to maintain this safe guard would jeopardize the health, safety and welfare of recipients of Medicaid program services as well as impose an injurious and unsound financial burden on the citizens of Kentucky.
- (3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: The amendment affects the sixty-two (62) hospitals reimbursed via a DRG reimbursement methodology which agreed to the supplemental payments.
 - (4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
 - (a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The sixty-two (62) hospitals reimbursed via a DRG reimbursement methodology

- which agreed to the supplemental payments will need to continue agreeing to the supplemental payments.
- (b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The amendment imposes no cost on the entities identified in question (3).
 - (c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The groups identified in question (3) will receive supplemental payments from DMS.
- (5) Provide an estimate of how much it will cost to implement this administrative regulation:
- (a) Initially: The amendment will cost DMS \$195 million (federal and state combined) over a period of eight (8) calendar quarters. DMS would pay \$140.8 million (federal and state combined) in calendar year 2009 and the balance - \$54.2 million (federal and state combined) in calendar year 2010.

- (8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor directly or indirectly increases any fees.
- (9) Tiering: Is tiering applied? (Explain why tiering was or was not used)
This administrative regulation establishes supplemental payments to hospitals reimbursed via the DRG reimbursement methodology which agreed, in April 2009; to the supplemental payments.
